

Instructions for Ordering Mistletoe Therapy in the USA

Note 1: Clinics cannot order mistletoe to have stock or sell to patients directly. Patients must pay for and order themselves from the Canadian distributor. Clinics or practitioners will not be allowed to purchase orders for patients. This is for the continued availability of mistletoe to all patients in the US.

Note 2: In Canada, Helixor is called “Viscosan drinkable ampoules” – it is the same product as Helixor, but only with a different trade name and registration in Canada.

- 1) Ensure patient is aware of the price and that someone from Nature’s Source in Canada will be calling regarding their prescription for mistletoe.
- 2) Send a written recommendation or the “US Viscosan order form” by fax (416-242-7451) or email (contact@natures-source.com) to Nature’s Source.
- 3) The order will be shipped as soon as the distributor confirms payment details with the patient, and the shipment will take 3-7 business days.
- 4) For reorders, the patient can contact Nature’s Source directly OR the clinic/doctor can redo step 2 above.

For therapeutic/dosing inquiries:

Canada: Robbin Coedy rcoedy@helixor.ca or advice@helixor.ca

Germany: advice@helixor.de

For shipping/payment inquiries:

Nature’s Source: Roy or Jennifer (contact@natures-source.com / 1-866-502-6789)
